- 1.100 Any company desiring to enter into a Project Agreement for Maintenance by Contract, must appear before the General Presidents' Committee (hereinafter the "Committee") for purposes of review and orientation and present to the Committee written evidence of the owner's intent to engage that company in the performance of maintenance service for a minimum period of one full year, subject to the usual termination clauses in such contracts.
- 1.200 It is further understood that the Project Agreement shall not be applicable for "shutdown" or "turnaround" work except when such work is performed within the scope of full or year-round supplementary maintenance contracts. In order to implement this restriction, it is understood that on newly constructed plants or units a shutdown may occur at any time under the terms of the Project Agreement but existing plants employing this service must have been under contract for full or year-round supplementary Maintenance service for at least four months prior to commencement of the shutdown/turnaround or such work shall be performed under the terms of the local Construction Agreement.

- 3.200 The Company and the Unions:

until such time as the Claimant Unions agree upon another and provided further that work considered within the jurisdiction of any Union which is not represented by the Unions listed herein may be assigned by the Company to the jurisdiction of the most appropriate Union.

- 3.202 Recognize the Unions as herein duly constituted for the purpose of bargaining collectively and administering this Agreement for the members of their respective Unions. The responsibility for interpretation and administration of this Agreement rests in the Committee.
- 3.203 Agree to bargain collectively with the Unions and to be governed by the terms of this Agreement and by all lawful settlements of disputes and grievances made pursuant thereto. On maintenance work, the Project Agreement shall govern terms and conditions and take precedence over local construction agreements or area practices.

---

- 4.400 It will be the Unions' responsibility to provide a referral slip to the employee at the jobsite or supply a satisfactory replacement, who is a member. Tradesmen, who are employed under these circumstances (in special trades or skills or who are trained at Company expense for special work) will not be replaced except by written request of the Union within sixty days of the date of hire and approval of the Company.

- 5.300 The Unions and the Company understand that the Owner may, at his discretion, choose to perform or directly subcontract work for any part or parts of the work necessary in his plant.

---

## ARTICLE 6.000 DEFINITIONS

---

- 6.100 Maintenance shall be work performed for the repair, renovation, revamp and upkeep of property, machinery and equipment within the limits of the plant property.
- 6.101 Maintenance shall be the continuing work performed of a maintenance, repair, renovation character within the limits of the plant property.
- 6.200 All work performed by the Company on existing equipment and machinery, including all associated work in a given plant, shall be maintenance. This shall include replacement of existing individual items of machinery and equipment with new units, including all associated work, as well as maintaining the facilities to accommodate environmental regulations as required by law. It is understood that this concept would not include replacement of an entire process system installation in a plant in order to increase production.
- 6.300 Addition of spare machinery or equipment may be done under the Maintenance Agreement provided it is for debottlenecking purposes. Example: There are two existing pumps. Both pumps are required to run at all times to maintain full production. A spare may be added for the purpose of having one pump down for maintenance.
- 6.400 Changes to existing units for reasons of feed stock changes or fuel changes shall be maintenance.
- 6.500 The work "repair" used within the terms of this Agreement and in connection with maintenance, is work requested to restore by replacement or by revamp of parts of existing facilities to efficient operating conditions.
- 6.600 The word "renovation" used within the terms of this Agreement and in connection with maintenance, is work required to change by replacement or by "revamp" of parts of existing facilities to efficient operating conditions.
- 6.700 Fire restoration work will be administered as follows:
- 6.701 The restoration of a plant completely destroyed by fire is considered construction work.
- 6.702 The restoration of a major part of a plant including several sections which have been destroyed or damaged by fire, shall be governed by the following criteria:
- (a) The removal of damaged equipment and the preparation of the damaged area to make it suitable for new equipment will be Maintenance.
  - (b) The installation and erection of new equipment will be Construction.

- 6.703 When the fire damage is localized to a given operating unit, such as a heater, distillation tower, compressor, pumphouse equipment and the like, then the restoration of same is to be considered Maintenance.
- 6.800 The administration and interpretation of this Article is the responsibility and prerogative of the General Presidents' Committee for Contract Maintenance in Canada.

---

## ARTICLE 7.000 GRIEVANCE PROCEDURE

---

- 7.100 It is agreed that it is the spirit and intent of this Agreement to adjust grievances promptly. All grievances, including discharge for just cause, but not those pertaining to jurisdictional disputes that may arise on any work covered by this Agreement, must be initiated within fifteen (15) working days of the incident by either the employee in Step I or the Local Union in Step II and shall be handled in the following manner:
- 7.101 Step I Between the aggrieved employee and/or his Steward and the Company supervisor.
- 7.102 Step II Between the aggrieved employee, his Steward and/or Local Union Business Representative and his Foreman, the Supervisor and the Project Manager. If settlement is not achieved at this step, the grievance must be presented in writing to the Company and to the International Representative of the Union involved.
- 7.103 Step III Between the International Union Representative and the Labour Relations Manager or the highest official of the Company.
- 7.104 Step IV By negotiation between a committee of the unions signatory to this Agreement and senior officials of the Company at a meeting to be held at the place of work or a mutually agreeable location.
- 7.105 Step V If any dispute or grievance concerning the interpretation, application or violation of this Agreement cannot be settled through the procedure described above within ten (10) working days, the matter may be submitted by a Signatory Union to this Agreement or the Company, to a Board of Arbitration for adjudication. This Board shall consist of three (3) Arbitrators, one appointed by each party to this Agreement and the third, who shall act as Chairperson, to be selected by the two so appointed. The party desiring arbitration shall appoint its Arbitrator and shall give notice in writing to the other party together with a written statement of the question to be arbitrated. In the event that the other party does not appoint its Arbitrator within three (3) days the appointment shall be made by the Minister of Labour for the Province in which the grievance occurs.

In the event the two Arbitrators appointed cannot within three (3) days select a third Arbitrator who is willing to serve, the two Arbitrators shall jointly request the Minister of Labour of the Province in which the grievance occurs to designate the third Arbitrator who shall act as Chairperson. This Board when selected or appointed will proceed as soon as practicable to examine into the dispute or grievance and on the basis of the facts, render its judgement. The majority or unanimous decision of the Board of Arbitration shall be final and binding and accepted by both parties for the duration of the Agreement.

In the event that a majority decision is not reached by the Board of Arbitration, the decision of the Chairperson shall be deemed to be the decision of the Board and shall be final and binding and accepted by both parties for the duration of the Agreement.

The Arbitration Board shall not be authorized to make any decisions inconsistent with the provisions of this Agreement, nor to alter, modify or amend any part of this Agreement.

In arbitration proceedings, each party shall pay the expenses of its Arbitrator and the expenses of the Chairperson shall be shared equally by the parties.

The Company shall provide the necessary facilities for the grievance meetings.

7.200 Grievance forms will be provided by the Company at the jobsite or they may be downloaded from the General Presidents' Maintenance Committee website at [www.gpmccanada.com](http://www.gpmccanada.com).

---

## ARTICLE 8.000 JURISDICTION

---

8.100 Project maintenance conditions do not always justify adherence to craft lines which, in itself, does not establish precedent or change the appropriate jurisdiction of the crafts involved. Composite crews may be formed where conditions warrant, but this is not to be construed under regular operating conditions as the Company's prerogative to assign men out of their usual skill classification.

8.200 The Company may, if it desires, maintain a variety of skills within its group of employees to be prepared to have skills and/or supervision for any type of work that may arise.

8.300 It is understood that all employees will work together harmoniously as a group and as directed by the Company.

8.400 In the event that any jurisdictional disputes shall arise between two or more Unions represented by this Agreement, an immediate assignment of the work in question shall be made by the Company representative, based upon decisions and agreements of record or other information available. The work is then to continue and, if any of the Unions involved are not satisfied with the assignment, the matter shall be referred to the International Office of the Unions involved for a project decision.

8.500 The Company and the Unions agree that such assignment of work involved in a jurisdictional dispute is imperative to the satisfactory operation of this Agreement and the continued operation of the Owner's plant.

---

## ARTICLE 9.000 UNION REPRESENTATIVES

---

9.100 Representatives of the Unions shall have access to the job during working hours on Union business. They shall, as regulations of the plant permit, obtain specific authorization from the Company for each visit.

---

## ARTICLE 10.000 STEWARD

---

10.100 Each Union signatory to this Agreement may appoint or select one (1) working Steward from among the Company employees to act as a representative of the Union in connection with Union business. Each Union may also appoint an acting Steward for afternoon or midnight shifts. These Stewards shall

be allowed reasonable time to conduct Union business related to this project. The Business Manager of the applicable Local Union shall be consulted in advance of the termination of the Steward.

- 10.101 It is established that the company will notify Job Stewards of lay-offs within their trade on a timely basis.
- 10.200 Steward designations must be confirmed in writing to each job superintendent in order to allow recognition of Steward's privileges.
- 10.300 The Steward shall not be discriminated against and shall receive his fair share of overtime work for which he is qualified.
- 10.400 At layoff, the appointed Steward will be one of the last three employees on the job, provided he is qualified to perform the work at hand.
- 10.500 Notwithstanding the remainder of this article, a Job Steward who is a short-term employee may be laid off when the assignment for which he was hired is completed.

---

## ARTICLE 11.000 REFERRAL OF MEN

---

- 11.100 Maintenance work that the Company performs involves maintaining operating units that in almost all cases must be kept running. This situation means that much of the work is of an emergency nature and therefore, will require at times the acceptance of extreme fluctuations in the labour demands made by the Company on the Unions. The Unions, by this Agreement, completely understand the necessity of these extremes and agree to make every effort to fulfill the manpower requirements of the Company.
- 11.200 When employees are required, the Company shall request that the required number of applicants be referred for employment under the following minimum standards. Such requests to the Union Hall will be made and/or confirmed by facsimile:
- 11.201 The Local Union Business Representative will be contacted by the company on all occasions when men are required and the Company shall state that the men are required for maintenance work, and also state:
- (1) whether they are to be standard day, intermittent shift or continuous shift employees.
- 11.202 The Company will use its best judgement in advising the Local Business Agent of type of work (i.e. day shift, intermittent shift, continuous shift, etc.)
- 11.203 The Union representative shall, to the best of his ability, supply qualified tradesmen to perform the work described under this Agreement.
- 11.204 For just and sufficient cause, the Company shall retain the right to reject any applicant referred by the Union. Such information will be transmitted to the Union in writing.
- 11.205 The Company will be allowed the same ratio of name hire as provided for in the respective reference Agreements, including provisions such as recall as set out in said Agreements. Name hire ratios will be respected at lay-off if provided for in the reference Agreements.

- 11.300 The designation and determination of the number of foremen on maintenance work shall be the prerogative of the Company. Foremen may be requested to work with the tools, when in the Company's opinion, it is advisable.
- 11.400 Tradesmen referred to the job by the Local Union Representative, shall report to the Employment Office established for the project.
- 11.500 The Company may transfer foremen as well as employees with special skills or qualifications to projects where forces are being increased. Transfers are not permitted to displace existing employees.
- 11.600 When employees are absent from work and do not inform the project supervisor of the reason for their absence such employees may be terminated. The Company will establish reasonable rules with respect to absence within its project rules and will make these rules available on the job site.
- 11.700 The parties to this Agreement recognize the importance of apprenticeship to the maintenance industry. The parties agree to support, wherever practicable, the employment of apprentices on maintenance projects to reflect acceptable reference agreement ratios.
- 11.800 The Company will hold pre-job information meetings, a minimum of thirty (30) days prior to any known significant maintenance event with all participating local unions.
- The Committee and the signatory employers agree to meet in late January or early February to review all known maintenance activities for each year.

---

## ARTICLE 12.000 WAGES

- 12.200 Fringe Benefits will be paid according to the attached Appendix B and C.
- 12.300 Management Association funds, discretionary funds and premiums for high or low work, hazardous work, dirty work, acid work and other similar fringes are excluded from this agreement.
- 12.400 In the event that local agreements terminate and no agreement is reached regarding wages, the Company, in order that continuity of work shall be maintained agrees as follows:
- 12.401 Should a work stoppage occur in negotiating the local agreement, the employees of the affected unions will be paid the appropriately adjusted wage rate negotiated in the new agreement, on a retroactive basis to the date of the work stoppage or the effective date of the new wage rate whichever is the earlier.
- 12.402 Should no work stoppage occur in negotiating the local agreement, the employees of the affected unions will be paid the appropriately adjusted minimum wage rate negotiated in the new agreement

on the effective date of the new wage rate. This is to ensure against any work stoppage on this project which would be caused by a breakdown of local negotiations.

- 12.500 Wages will be paid weekly by electronic deposit or by cheque at the discretion of the employer. An exception to direct deposit will be made where an employee is able to provide a letter from a recognized Canadian financial institution verifying that the employee is ineligible to establish banking arrangements. The payroll period will generally close at 12:00 midnight on Saturday, however, in order to meet the job requirements the Company may close the payroll earlier. This will be established as a job condition and those affected so notified. Wages will be distributed no later than the following Thursday before the end of the shift except during a week when a Statutory Holiday falls on a Monday, in which case wages will be distributed no later than the following Friday before the end of the shift.
- 12.501 Employees who are laid off or terminated from the services of the Company shall normally receive their final wages, vacation pay due, employment insurance record of earnings, and apprenticeship books before they leave the jobsite. Employees who quit will have their final pay and employment record of earnings mailed or deposited no later than the date of the next regular pay day for the earnings involved.
- 12.502 It is recognized that there will be certain occasions when the above procedure is not possible for terminated or laid-off employees. In these cases final wages, vacation pay due and employment and insurance record of earnings will be mailed via Express Post to the employee's last recorded home address within three (3) working days exclusive of Saturdays, Sundays and Statutory Holidays. EI Records of Earnings (ROE's) will be filed electronically or at the employees' written request be mailed Express Post to the employees' last recorded home address within three (3) working days exclusive of Saturdays, Sundays and Statutory Holidays.

## ARTICLE 19.000 MINIMUM PAY AND REPORTING TIME

---

19.100 Inclement Weather - The Company retains the right to determine working requirements, number and kind of people required, when only a portion of the work may be performed under protection or may be of an emergency nature. The procedure for review and determination of work and men to remain on the job shall be as follows:

19.101 The Company Superintendent will immediately contact the Foreman and Job Steward(s) of the Craft Union (s) affected and survey:

- (a) Circumstances affecting safety and efficiency of the work.
- (b) Determine degree of urgency of job continuation.
- (c) Determine number and skills of men required to perform the work commensurate with the urgency established.
- (d) Determine and arrange protection for safe efficient performance of the work as required by urgency and inclement condition.

19.102 The Foreman and Shop Steward will then advise the men of the circumstance, provisions being made for their safety and protection and arrange for the necessary men to proceed with assignments.

19.103 If work which can be done under reasonable and safe conditions cannot be found for all the craftsmen, then those who cannot be gainfully employed will be allowed to leave the job. The Company at this point will endeavor to find work for all craftsmen by rescheduling and altering the planned work, if so required.

19.104 If at this stage the craftsmen still refuse to go to work, the Superintendent will instruct the Foreman and Steward of the craft that they are to contact the Business Agent or his immediate superior and report that the craftsmen have refused to go to work.

19.105 Subject to above, Article 20.500 of the Agreement shall be applied.

19.106 When an employee reports to work and cannot work because of inclement weather he shall be paid two (2) hours reporting time and the employee must remain on the job for the two (2) hour period unless otherwise instructed by the Company Supervisor.

- 19.200 **Work Not Available** - The following conditions apply:
- 19.201 When an employee reports to work and is not given the opportunity to work because none is available or was not advised before the completion of the previous day's work, he shall be paid two (2) hours reporting time and allowed to leave the job immediately.
- 19.202 If an employee has started to work on his regular shift he shall be paid not less than four (4) hours pay. When the employee works more than four (4) hours but less than eight (8) hours on his regular shift he shall be paid a minimum of eight (8) hours pay.
- 19.203 For those employees working 12 hours on the continuous shift conditions minimum pay will be governed by a 3-6-12 principle.
- 19.204 When an employee is requested to return to work for overtime between work days or on weekends he shall be paid a minimum of two (2) hours pay at the appropriate overtime rate.
- 19.300 Conditions for "Call-Ins" of employees will be as follows:
- 19.301 When an employee is called in to work on his scheduled day off or a holiday, he shall be paid a minimum of two and one half (2 ½) hours pay at double (2) the basic hourly rate.
- 19.302 Employees will receive a minimum of two and one half (2 ½) hours pay for all "Call-Ins" regardless of time or duration except that total call in pay within a given eight (8) hour period will not exceed normal overtime pay for that eight (8) hour period.
- 19.303 "Call-In" pay will be applicable to each call extended to an employee except that total call in pay within a given eight (8) hour period shall not exceed normal overtime pay for that period.

- (i) Minimum of two and one half (2 ½) hours at double the basic rate.
  - (ii) Overtime rate for any hours worked in excess of two and one half (2 ½) hours up to starting time of employee's regular work day.
  - (iii) At normal starting time of employee's regular work day pay shall revert to appropriate pay for that day.
- 19.305 It is not intended that an employee shall work more than sixteen (16) in any given twenty-four (24) hour period, therefore, it should be established that an employee must have at least eight (8) continuous hours off between regular shifts or worked in excess of first eight (8), until such time as the employee does have eight (8) continuous hours off.

This shall be established as a Project Rule and it shall be the Supervisor's responsibility to verify the returning time with any employee working in excess of 16 hours or returning between shifts on "Call-Ins" to ascertain that the employee does receive the eight (8) hours off or is paid correctly. The employer may increase the eight (8) hour break period accordingly in order to ensure employees travelling long distances to the project receive an adequate rest period.

Employees commencing call-ins after 4:00 p.m. on Sunday will be subject to the eight (8) hour break rule if the required eight (8) hour break runs into Monday's regular hours of work.

- 19.306 It is the intent of this clause that no employee shall lose pay on a normal shift due to taking the required eight (8) hour break.
- 19.307 This guarantee does not operate when employees working their regular shift are notified of a change in work hours and required to take an 8 hour break. In such cases, the provisions of the 2-4-8 hour minimum pay provided for in Articles 19.201 and 19.202 will apply.
- 19.400 Subject to the above, it shall be the Company's prerogative to decide whether work shall be stopped during a day of work.
- 19.500 If an employee stops work for reasons of his own, and without the approval of the Company, he shall be entitled to pay only for the hours actually worked in the day and minimum conditions shall not apply.
- 19.600 Conditions for employees on Stand-By Duty on scheduled days off will be as follows:
- 19.601 Whenever an employee is scheduled for stand-by duty he will be reimbursed with two (2) hours pay at double-time (2) for each period of duty. Each stand-by period will not exceed twenty-four (24) consecutive hours, and not more than three (3) consecutive stand-by periods will be permitted.

## EXAMPLES SECTION

**CASE I** A man who works from 8:00 a.m. to 4:30 p.m., and is called in at 1:00 a.m. and works until 3:30 a.m., then resumes his regular shift at 8:00 a.m., would be paid overtime for the hours worked from 1:00 a.m. to 3:30 a.m., but would be on straight time from 8:00 a.m.

He had a continuous 8 hour break between the end of one regular shift (4:30 p.m. to 1:00 a.m.) and the beginning of the next.

**CASE II** A man who works from 8:00 a.m. to 4:30 p.m., and is called in at 11:00 p.m. and works until 2:00 a.m., then resumes his regular shift at 8:00 a.m., thus has not had a continuous 8 hour break between the end of one shift and the beginning of the next. He is entitled to overtime from 8:00 a.m. onwards until an 8 hour break occurs, or alternately and preferably the man may be instructed not to report until 10:00 a.m., i.e., so that he has an 8 hour break. In this event the "2, 4, 8 hour" pay clause would apply and the man would receive 8 hours pay for that day even though he reported back to work at 10:00 a.m. For call-ins on Sunday, which precede and may become continuous with regular work day Monday morning, the following rules will apply:

(1) The employee must have 8 continuous hours off in the 24 hour period immediately preceding 8:00 a.m. Monday morning.

(2) The employee should not work more than 16 hours without an 8 hour break.

**CASE I** Therefore, if a man is called in at 4:00 p.m. Sunday and works until 1:15 a.m., he should report for work at 8:00 a.m. and be paid straight time, as he had an 8 hour break in the 24 hour period preceding 8:00 a.m. Monday.

**CASE II** An employee should not work more than 16 hours and must take an 8 hour break before continuing work. Therefore, an employee called in at 7:00 p.m. Sunday could work until 11:00 a.m. Monday, 16 hours. He would be paid double-time from 7:00 p.m. until 8:00 a.m. He would revert to straight time at 8:00 a.m., until 11:00 a.m. He would then be sent home at 11:00 a.m. and paid 8 hours for Monday (8:00 a.m. to 4:30 p.m.). Employees working long call-ins that approach regular starting time on Monday, should be given the option of remaining at work and taking advantage of the 16 hour rule. In other words, it is unfair to send the employee home at 7:00 a.m. after working 10 hours, and expect him to be back at 8:00 a.m. to be paid straight time.

**CASE III** In another case an employee is called in at 2:00 p.m. on Sunday and works until 2:00 a.m. He would be instructed to take an 8 hour break and report at 10:00 a.m. Monday and be paid for the day at straight time, as he did not have a continuous 8 hour break in the 24 hour period from 8:00 a.m. Sunday to 8:00 a.m. Monday.
