ARTICLE 1.000 APPLICATION FOR PROJECT AGREEMENT

- 1.100 Any Company desiring to enter into a Project Agreement for Maintenance by Contract, must appear before the General Presidents' Committee (hereinafter the "Committee") for purposes of review and orientation and present to the Committee written evidence of the Owner's intent to engage that Company in the performance of maintenance service for a minimum period of one full year, subject to the usual termination clauses in such contracts.
- 1.200 It is further understood that the Project Agreement shall not be applicable for "shutdown" or "turnaround" work except when such work is performed within the scope of full or year-round supplementary maintenance contracts. In order to implement this restriction, it is understood that on newly constructed plants or units a shutdown may occur at any time under the terms of the Project Agreement but existing plants employing this service must (4) have been under contract for full or year-round supplementary Maintenance service for at least four months prior to commencement of the shutdown/turnaround or such work shall be performed under the terms of the local Construction Agreement.

ARTICLE 6.000 DEFINITIONS

6.101 "Long-Term Maintenance" shall be the continuing work performed of a maintenance, repair, renovation character within the limits of the plant property exclusive of "Short-Term Maintenance" defined below.

6.102 The Company will designate the anticipated number of Long-Term Maintenance force job openings at the pre-job meeting and from time to time as job conditions warrant.

6.103 "Short-Term Maintenance" work means work that is terminated within 30 available days of work.

6.200 All work performed by the Company on existing equipment and machinery, including all associated work in a given plant, shall be maintenance. This shall include replacement of existing individual items of machinery and equipment with new units, including all associated work, as well as maintaining the facilities to accommodate environmental regulations as required by law. It is understood that this concept would not include replacement of an entire process system installation in a plant in order to increase production.

6.300 Addition of spare machinery or equipment may be done under the Maintenance Agreement provided it is for debottlenecking purposes. Example: There are two existing pumps. ARTICLE 7.000 GRIEVANCE PROCEDURE

- 7.100 It is agreed that it is the spirit and intent of this agreement to address grievances promptly. All grievances, but not those pertaining to jurisdictional disputes, covering the interpretation, application, operation, terminations, or alleged violation of this collective agreement that may arise on any work covered by this agreement must be initiated in writing within ten (10) calendar days of the incident and shall be handled in the following manner:
- 7.101 Step I Between the aggrieved Employee/Craft Steward and the Employer foreperson/supervisor.
- A standard GPMC/NMC grievance form must be filled out by the Craft Steward/Employer at this step. Grievance forms will be provided by the Company at the jobsite, or they may be downloaded from the General Presidents' Maintenance Committee website at www.gpmccanada.com
- If the grievance is not settled within seven (7) calendar days, then the grievance may be advanced to Step II. Written notice must be provided when advancing to the next step.
- 7.102 Step II Between the aggrieved Employee, the Craft Steward and/or local Union business representative and the foreperson, the supervisor, and the project manager.

If settlement is not achieved within seven (7) calendar days at Step II, the grievance may be advanced to Step III. Written notice must be provided to the International Union Representative and the Employer Representative when advancing to the next step.

Timelines may be extended upon written agreement by both parties.

- 7.104 Step IV The Labour Relations Representative (GPMC/NMC) shall establish a Grievance Panel consisting of three (3) Committee Representatives within fourteen (14) calendar days of notification, either at a mutually agreed to location or via electronic platform to hear the grievance.

Please note that the remedy requested by either party must clearly identified in writing on the grievance form.

All submissions shall be received by the Labour Relations Representative no later than three (3) calendar days prior to the scheduled hearing date.

The Grievance Panel shall render their decision in a timely manner.

If either party to the grievance does not accept the Grievance Panel's decision, they may advance the grievance to Step V upon written notification to the affected Party.

- 7.105 Step V If any dispute or grievance concerning the interpretation, application or violation of this agreement cannot be settled through the procedure described above, the matter may be submitted by the Union or the Employer to arbitration for adjudication within ten (10) calendar days.

- 7.200 Grievance forms will be provided by the Company at the jobsite or they may be downloaded from the General Presidents' Maintenance Committee website at www.gpmccanada.com.

ARTICLE 8.000 JURISDICTION

- 8.100 Project maintenance conditions do not always justify adherence to craft lines which, in itself, does not establish precedent or change the appropriate jurisdiction of the crafts involved. Composite crews may

be formed where conditions warrant, but this is not to be construed under regular operating conditions as the Company's prerogative to assign tradespeople out of their usual skill classification.

- 8.200 The Company may, if it desires, maintain a variety of skills within its group of employees to be prepared to have skills and/or supervision for any type of work that may arise.
- 8.300 It is understood that all employees will work together harmoniously as a group and as directed by the Company.
- 8.400 In the event that any jurisdictional disputes shall arise between two or more Unions represented by this Agreement, an immediate assignment of the work in question shall be made by the Company representative, based upon decisions and agreements of record or other information available. The work is then to continue and, if any of the Unions involved are not satisfied with the assignment, the matter shall be referred to the International Office of the Unions involved for a project decision.
- 8.500 The Company and the Unions agree that such assignment of work involved in a jurisdictional dispute is imperative to the satisfactory operation of this Agreement and the continued operation of the Owner's plant.

ARTICLE 9.000 UNION REPRESENTATIVES

- 9.100 Representatives of the Unions shall have access to the job during working hours on Union business. They shall, as regulations of the plant permit, obtain specific authorization from the Company for each visit.

- 10.100 Each Union signatory to this Agreement may appoint or select one (1) working Steward from among the Company employees to act as a representative of the Union in connection with Union business. Each Union may also appoint an acting Steward for afternoon or midnight shifts. These Stewards shall be allowed reasonable time to conduct Union business related to this project. The Business Manager of the applicable Local Union shall be consulted in advance of the termination of the Steward.
- 10.101 It is established that the Company will notify Job Stewards of lay-offs within their trade on a timely basis.
- 10.200 Steward designations must be confirmed in writing to each job superintendent in order to allow recognition of Steward's privileges.
- 10.300 The Steward shall not be discriminated against and shall receive their fair share of overtime work for which they are qualified. The Company will use its best efforts to advise Job Stewards of unscheduled overtime.
- 10.400 At layoff, the appointed Steward will be one of the last three (3) employees on the job, provided they are qualified to perform the work at hand.
- 10.500 Notwithstanding the remainder of this article, a Job Steward who is a short-term employee may be laid off when the assignment for which they were hired is completed.

10.600 When an affiliated Union has ten (10) or more members working for the Company, at a particular jobsite, the Health and Safety Representative designated for each trade shall not be laid off.

If the affiliated Union has less than ten (10) members working for the Company, at a particular jobsite, there shall be no layoff protection for each trades designated Health and Safety Representative.

ARTICLE 11.000 REFERRAL OF TRADESPEOPLE

11.100 Maintenance work that the Company performs involves maintaining operating units that in almost all cases must be kept running. This situation means that much of the work is of an emergency nature and therefore, will require at times the acceptance of extreme fluctuations in the labour demands made by the Company on the Unions. The Unions, by this Agreement, completely understand the necessity of these extremes and agree to make every effort to fulfill the manpower requirements of the Company.

11.200 When employees are required, the Company shall request that the required number of applicants be referred for employment under the following minimum standards. Such requests to the Union Hall will be made and/or confirmed by facsimile:

11.201 The Local Union Business Representative will be contacted by the Company on all occasions when tradespeople are required and the Company shall state that the tradespeople are required for maintenance work, and also state:

- (1) whether they are to be day rated, short shift, long shift or Compressed Work Week employees.
- (2) whether they are to be initially employed on Long-Term or Short-Term Maintenance as defined herein.

11.202 The Company will use its best judgement in advising the Local Business Agent of type of work (i.e. day rate, shift, etc.) and if the employee is to be assigned to Long-Term or Short-Term Maintenance work.

11.203 The Union representative shall, to the best of their ability, supply qualified tradespeople to perform the work described under this Agreement.

11.204 For just and sufficient cause, the Company shall retain the right to reject any applicant referred by the Union. Such information will be transmitted to the Union in writing.

11.205 The Company will be allowed the same ratio of name hire as provided for in the respective reference Agreements, including provisions such as recall as set out in said Agreements. Name hire ratios will be respected at lay-off if provided for in the reference Agreements.

11.206 Where recall arrangements are not covered by a current understanding with the Local Union, the Employer may, on unplanned outages, request recall of local union members who have valid customer and contractor orientation certificates within thirty (30) days of lay-off. The Employer will provide a list of such individuals to the Local Union for recall.

11.300 The designation and determination of the number of Forepersons on maintenance work shall be the prerogative of the Company. The Foreperson may be requested to work with the tools, when in the Company's opinion, it is advisable.

- 11.400 Tradespeople referred to the job by the Local Union Representative, shall report to the Employment Office established for the project.
- 11.500 The Company may transfer the forepersons as well as employees with special skills or qualifications to projects where forces are being increased. Transfers are not permitted to displace existing employees.
- 11.600 When employees are absent from work and do not inform the project supervisor of the reason for their absence such employees may be terminated. The Company will establish reasonable rules with respect to absence within its project rules and will make these rules available on the job site.
- 11.700 The parties to this Agreement recognize the importance of apprenticeship to the maintenance industry. The parties agree to support, wherever practicable, the employment of apprentices on maintenance projects to reflect acceptable reference agreement ratios.
- 11.800 The Company will hold pre-job information meetings, a minimum of thirty (30) days prior to any known significant maintenance event with all participating local unions.
- The Committee and the Signatory Employers agree to meet in late January or early February to review all known maintenance activities for each year.
- 11.900 Employees who attend specific, technical training courses associated with their maintenance duties which are organized by the Company beyond their normal hours of work or on a Saturday, Sunday or earned day off shall be paid at the straight time rates of pay for a minimum of four (4) hours pay or the actual length of the training.
- 11.901 **Employer Online Orientation & Onboarding**
- If an Employer requires an Employee to complete online orientation and on-boarding, where applicable, the Employer shall estimate a reasonable amount of time to complete the online orientation and on-boarding where applicable. The Employer shall pay an allowance for completing the course(s) equal to time estimated, multiplied by the straight time total package hourly rate.
- 11.902 **Client Online Orientation & Onboarding**
- Employees will be compensated for the prescribed amount of time, multiplied by their straight time total package hourly rate, for completing any Owner/Client online orientation, onboarding or basic training courses required of an Employee.
- The Employer will identify the prescribed amount of time required for each course and include this information on the manpower request sent to the Local Union. The prescribed amount of time for each course shall also be forwarded to the administrative office of the GPMC.
- When a job call is cancelled, and Employees at the direction of the Employer have completed the required course(s), this Article shall apply and those affected shall be compensated. Alternatively, compensation will not be provided to Employees who complete the required course(s) but fail to report for duty.

20.100 Inclément Weather - The Company retains the right to determine working requirements, number and kind of people required, when only a portion of the work may be performed under protection or may be of an emergency nature. The procedure for review and determination of work and tradespeople to remain on the job shall be as follows:

- (a) Circumstances affecting safety and efficiency of the work.
 - (b) Determine degree of urgency of job continuation.
 - (c) Determine number and skills of tradespeople required to perform the work commensurate with the urgency established.
 - (d) Determine and arrange protection for safe efficient performance of the work as required by urgency and inclement condition.
- 20.102 The Foreperson and Shop Steward will then advise the tradespeople of the circumstance, provisions being made for their safety and protection and arrange for the necessary tradespeople to proceed with assignments.
- 20.103 If work which can be done under reasonable and safe conditions cannot be found for all the craftspeople, then those who cannot be gainfully employed will be allowed to leave the job. The Company at this point will endeavor to find work for all craftspeople by rescheduling and altering the planned work, if so required.
- 20.104 If at this stage the craftsmen still refuse to go to work, the Superintendent will instruct the Foreperson and Steward of the craft that they are to contact the Business Agent or their immediate superior and report that the craftspeople have refused to go to work.
- 20.105 Subject to above, Article 20.500 of the Agreement shall be applied.

Work performed on the make-up day will be on a voluntary basis. Work performed on a make-up day for the first ten (10) hours shall be at the straight time hourly rate up to a maximum of forty (40) hours per week after which the applicable Saturday overtime provisions shall apply. In no case shall the time worked on a make-up day be less than eight (8) hours except where weather conditions affect the foregoing. This only applies to the standard forty (40) hour compressed work weeks (Monday to Thursday).
- Those working a make-up day will be entitled to the applicable overtime rate for the shift should the employer have other employees engaged in maintenance work on site and being paid at the applicable overtime rate.
- 20.200 Work Not Available - The following conditions apply:
- 20.201 When an employee reports to work and is not given the opportunity to work because none is available or was not advised before the completion of the previous day's work, they shall be paid three (3) hours reporting time and allowed to leave the job immediately.

20.202 If an employee has started to work on their regular shift, they shall be paid not less than four (4) hours pay. When the employee works more than four (4) hours but less than eight (8) hours on their regular shift they shall be paid a minimum of eight (8) hours pay.

It is understood and accepted that when work is not available or the employee has started to work on their regular shift and is then instructed to report for work at a later time in a given twenty-four (24) hour period the 3-4-8- principle applies to the regular shift. If the regular shift (not including overtime) is more than eight (8) hours (10 or 12 hours/CWW, etc.) the 3-4-8 equates to 3-5-10 or 3-6-12 respectively.

- (iii) At normal starting time of Employee's regular work day pay shall revert to appropriate pay for that day.

20.305 It is not intended that an Employee shall work more than sixteen (16) in any given twenty-four (24) hour period, therefore, it should be established that an Employee must have at least ten (10) continuous hours off between regular shifts or worked in excess of first eight (8), until such time as the Employee does have ten (10) continuous hours off.

This shall be established as a Project Rule and it shall be the Supervisor's responsibility to verify the returning time with any Employee working in excess of sixteen (16) hours or returning between shifts on "Call-Ins" to ascertain that the Employee does receive the ten (10) hours off or is paid correctly. The Employer may increase the ten (10) hour break period accordingly in order to ensure Employees travelling long distances to the project receive an adequate rest period.

Employees commencing call-ins after 4:00pm on Sunday will be subject to the ten (10) hour break rule if the required ten (10) hour break runs into Monday's regular hours of work.

- 20.306 It is the intent of this clause that no Employee shall lose pay on a normal shift due to taking the required ten (10) hour break.
- 20.307 This guarantee does not operate when employees working their regular shift are notified of a change in work hours and required to take an eight (8) hour break. In such cases, the provisions of the 2-4-8 hour minimum pay provided for in Articles 20.201 and 20.202 will apply.

International Association of Bridge, Structural, Ornamental & Reinforcing Iron Workers

EXAMPLES SECTION

CASE I A tradesperson who works from 8:00 a.m. to 4:30 p.m., and is called in at 1:00 a.m. and works until 3:30 a.m., then resumes their regular shift at 8:00 a.m., would be paid overtime for the hours worked from 1:00 a.m. to 3:30 a.m., but would be on straight time from 8:00 a.m.

They had a continuous 8 hour break between the end of one regular shift (4:30 p.m. to 1:00 a.m.) and the beginning of the next.

CASE II A tradesperson who works from 8:00 a.m. to 4:30 p.m., and is called in at 11:00 p.m. and works until 2:00 a.m., then resumes their regular shift at 8:00 a.m., thus has not had a continuous 8 hour break between the end of one shift and the beginning of the next. They are entitled to overtime from 8:00 a.m. onwards until an 8 hour break occurs, or alternately and preferably the tradesperson may be instructed not to report until 10:00 a.m., i.e., so that they have an 8 hour break. In this event the "2, 4, 8 hour" pay clause would apply and the tradesperson would receive 8 hours pay for that day even though they reported back to work at 10:00 a.m. For call-ins on Sunday, which precede and may become continuous with regular work day Monday morning, the following rules will apply:

(1) The employee must have 8 continuous hours off in the 24 hour period immediately preceding 8:00 a.m. Monday morning.

(2) The employee should not work more than 16 hours without an 8 hour break.

CASE I Therefore, if a tradesperson is called in at 4:00 p.m. Sunday and works until 1:15 a.m., they should report for work at 8:00 a.m. and be paid straight time, as they had an 8 hour break in the 24 hour period preceding 8:00 a.m. Monday.

CASE II An employee should not work more than 16 hours and must take an 8 hour break before continuing work. Therefore, an employee called in at 7:00 p.m. Sunday could work until 11:00 a.m. Monday, 16 hours. They would be paid double-time from 7:00 p.m. until 8:00 a.m. They would revert to straight time at 8:00 a.m., until 11:00 a.m. They would then be sent home at 11:00 a.m. and paid 8 hours for Monday (8:00 a.m. to 4:30 p.m.). Employees working long call-ins that approach regular starting time on Monday, should be given the option of remaining at work and taking advantage of the 16 hour rule. In other words, it is unfair to send the employee home at 7:00 a.m. after working 10 hours, and expect them to be back at 8:00 a.m. to be paid straight time.

CASE III In another case an employee is called in at 2:00 p.m. on Sunday and works until 2:00 a.m. They would be instructed to take an 8 hour break and report at 10:00 a.m. Monday and be paid for the day at straight time, as they did not have a continuous 8 hour break in the 24 hour period from 8:00 a.m. Sunday to 8:00 a.m. Monday.
