11.200 **Holiday Observance Clarification:**

On the day of observance, the Company may either pay the workforce at double-time (2) the total package straight time hourly rate or provide the day off.

- 11.300 On maintenance, the overriding factor is harmonizing statutory holidays with in-plant workers. Should the Owner determine another day be recognized for its people, this day will be recognized by Company forces.

The intent of the harmonization principle of the Statutory Holiday between the Client in-plant forces and those working under the GPMA/NMA Agreements allows for the alignment for all personnel working at a particular site to observe the same designated day in order to accommodate the operational requirements of the facility. A Client/in-plant union merely moving the Statutory Holiday for its in-plant personnel does not trigger the harmonization provision contained within the Collective Agreement. The day of observance for the Holiday remains as identified, unless direction has been given by the Client requesting for our employers to observe it at the same time as the in-plant personnel.

In order for the harmonization principle to be applicable, the Contractor must notify the GPMC in advance of the pending movement of the Holiday along with the designated day for observance. The designated day to for observance must be applicable to all contractors and all trades across the entire facility.

Employers will post the date to be observed no later than seven (7) days prior to the holiday.

The ten (10) hour system must operate for a minimum period of four (4) consecutive days before it is established as the regular hours of work. Once established it becomes the regular hours of work for those so assigned.

When establishing a four (4) day ten (10) hour work week, the Employer will advise the affected Local Union office that a four (4) day ten (10) hour option is in place and declare if it is a Monday to Thursday, or Tuesday to Friday work pattern.

Where a multi trade project is scheduled under the four (4) ten (10) hour shift system and an Employer secures short term work that may not provide for forty (40) hours of work, all hours worked shall be paid for in keeping with the provisions applicable to the four (4) ten (10) hour shift.

- 15.100(i) When ten (10) hour shifts are worked, in lieu of the work breaks and lunch breaks provided herein, the Employer shall have the option of scheduling two breaks of one half (½) hour each, paid at the applicable rate, approximately equally spaced in the ten (10) hour shift.

In the event an employee is not able to observe their break they shall be compensated in the following manner:

- a) On a straight time, day, the employee will be compensated an additional thirty (30) minutes paid at the time and one-half rate.
- b) On an overtime day, the employee will be compensated an additional thirty (30) minutes at the applicable overtime rate.

Under schedules utilizing a half (½) hour (paid break) system, they may be staggered one (1) hour either way to accommodate production schedules and emergencies. The above penalty clauses outlined in 15.100(i) a) and b) will apply in instances when the staggered one half (½) hour (paid break) is moved greater than one (1) hour either way to accommodate production schedules and emergencies.

- 15.200 Employees working a day shift defined as a shift starting at 8:00 a.m. shall work eight (8) hours for eight (8) hours pay.

The Company does not guarantee to provide work to any employee for regularly assigned hours, except as provided in 13.000.

Employees working any shift that is outside of daywork conditions, shall receive a shift premium of four dollars and fifty cents (\$4.50) per hour worked.

The mid-shift lunch break will be of one half (1/2) hour in duration and will be unpaid.

Where employees are requested to take a shift change, as much notice as possible will be given. If eight (8) hours notice is not provided then all regular hours worked on the first shift on the new schedule will be paid at time and one-half the straight time total package rate (1-1/2).

This shall also apply to those Employees who are required to arrive at work earlier than their crew on a continual basis to execute work of a preparatory nature for the impending shift. This article will not be applicable to "one-off" work assignments.

15.602 **Overtime Meal Allowance:**

It is understood that while the best possible situation is to provide an overtime meal and take a thirty (30) minute break at straight time rates, it is also recognized that there may be some situations where it is impractical to provide an overtime meal. When such events occur, the Company shall provide the employees:

A) **Scheduled Overtime:**

(Notification must be provided prior to the end of the current shift for the following day(s), to be considered as scheduled overtime).

15.604 **Overtime Meal Allowance for those on Subsistence or staying in camp:**

There shall be no meal allowance applicable to those receiving subsistence, however any reduction to the current subsistence rates will attract a meal allowance payment equivalent to the reduction.

Where a camp is provided, employees will not receive the forty dollars (\$40.00) meal allowance where they are able to receive a camp meal at the end of their shift.

15.700 Subject to Article 16.100 on the establishment of a four (4) ten (10) hour day system, any provisions regarding minimum number of days to establish afternoon or midnight shifts are not applicable under this Agreement.

It is the intent of this clause that no employee shall lose pay on a normal shift due to taking the required eight (8) hour break rule.

Time spent in site indoctrination sessions will not be counted as hours of work for the purposes of calculation of the sixteen (16) or eight (8) hours as noted above except when indoctrination is included as part of the regular work day.

- 4) The shift schedule will be paid as follows:
- 5) 4 x 10 Monday to Thursday or Tuesday to Friday: 10 hours @ straight time, 2 hours @ doubletime (2x)
- 6) 5 x 8 Monday to Friday: 8 hours @ straight time, 2 hours at time and one half (1 ½), 2 hours at doubletime (2x)

- 8) All employees on this shift must observe three (3) half hour breaks.

ARTICLE 17.000 APPRENTICES

- 17.100 The Council and Member Unions agree that the needs of plant maintenance may warrant differing apprentice ratios than those established. The Company and the Council Affiliates, therefore, agree to negotiate such ratios from time to time as the conditions warrant.
- 17.200 The Parties to this Agreement recognize the importance of apprenticeship to the maintenance industry. The Parties agree to support, the employment of apprentices on maintenance projects to reflect acceptable reference agreement ratios. The Company will set a target to employ a minimum of 25% apprentices (distributed evenly between the applicable levels of each trade) of the number of Journeypersons on the project (with 30% identified apprenticeship), unless varied by mutual agreement between the Company and Union as job conditions warrant.
- The Parties further agree that they will work together to maximize opportunities for local residents to participate in apprenticeship and to maximize opportunities for other underrepresented groups.

ARTICLE 18.000 HIRING AND TRANSFER OF WORKERS

- 18.100 The Company agrees to hire workers where work is being performed or is to be performed in accordance with the procedures established in the Local Union reference agreements by each Council affiliate except for Articles 18.101 and 18.102 below.

The Employer may use the name hire provisions contained in each Trades Local Union reference agreement when placing manpower requests for supervision.

A Local Union member who is recalled, per Article 19.102, shall be included and count towards the established name hire percentage.

The Employer shall not be permitted to bank calls or include unused name hire percentages when hiring at a later date.

Layoffs shall be conducted to maintain the 50/50 ratio, provided the remaining members are qualified to perform the work.

18.102 The following recall provisions shall be applicable to **all members of the Local Union**:

The Employer may recall any member who has worked for the Company under the Collective Agreement within the last six (6) months. An Employer may use a greater timespan for those Trades who have such language in their Local Union reference agreement.

A Local Union member who is recalled shall be included and count towards the established name hire percentage per Article 19.101.

18.103 **Employer Online Orientation & Onboarding**

If an employer requires an employee to complete online orientation and on-boarding, where applicable, the Employer shall estimate a reasonable amount of time to complete the online orientation and on-boarding where applicable. The Employer shall pay an allowance for completing the course(s) equal to that time estimate, to a maximum of eight (8) hours, at the straight time total package hourly rate.

18.104 **Client Online Orientation & Onboarding**

Employees will be compensated for the prescribed amount of time, at the straight time total package hourly rate, for completing any Owner / Client online orientation, onboarding or basic training courses required of an employee.

The Employer will identify the prescribed amount of time required for each course and include this information on the manpower request sent to the Local Union. The prescribed amount of time for each course shall also be forwarded to the administrative office of the GPMC and the Maintenance Contractors Association. These Parties will review the documentation to ensure the time allocated is uniform for all Employers.

When a job call is cancelled, and employees at the direction of the Employer have completed the required course(s), this Article shall apply and those affected shall be compensated. Alternatively, compensation will not be provided to employees who complete the required course(s) but fail to report for duty.

18.200 The Company may transfer employees to projects which are in the geographical jurisdiction of the Local Union and where forces are being increased.

Transfers are not permitted to displace existing employees.

Transfer between maintenance projects within the scope of the Local Union is permitted with the mutual agreement between the Company and the Local Union and on a voluntary basis for each affected employee. Upon notification, the mutual agreement between the Company and the Local Union will not be unreasonably withheld. Transfer from one site to another will not trigger additional initial and terminal travel payments, however, should an employee be required to move from one camp to another, they will be entitled to a payment of two (2) hours at the straight time rate should this occur outside of regular scheduled work hours

In the event that the employee refuses to be transferred, they will be issued the appropriate Record of Employment (ROE) pursuant to the Employment Insurance Act, however, it is generally understood that such circumstances would not attract a Code M or E designation. Employers have the right to offer further employment on other worksites in Alberta to all current employees outside of name hire or recall provisions.

18.300 On subsistence projects (subject to Art 13.00), local residents will be given priority of employment provided such resident meets the following criteria:

- (ii) qualified Union members residing outside of the local area.

18.304 Local Union members will retain employment priority should they possess the appropriate qualifications to remain on the job. An Employer choosing to layoff a local member and keep a travel card or permit member will notify and provide the affected Local Union with an appropriate written explanation.

18.305 The component Unions of the National Maintenance Council for Canada (NMC) recognize the importance of the supply of skilled and ready-to-work employees on maintenance projects. The NMC agrees to adopt the core safety training provisions which have been established by the individual component Unions and outlined in their respective reference agreements. Any future additions incorporated into the trade specific appendices of the reference agreement will be incorporated into this agreement.

18.306 The parties are committed to eliminating unnecessary, duplicative safety training. Therefore, workers are expected to disclose to the Employer any current safety training certificates that may be

required for that job, as identified by the Employer at the point of dispatch. The Employer shall supply a single point of contact for the purpose of supplying this information by way of email, fax, or phone. Following the acceptance of a dispatch slip, workers shall promptly remit to the Employer, copies of any applicable safety certificates by fax, email, or personal presentation at an address of the Employer or any other method that will achieve this objective.

ARTICLE 24.000 DURATION AND TERMINATION OF AGREEMENT

- 24.100 This Agreement shall become effective January 1, 2025, and will remain in full force and effect until December 31, 2028, and from year to year thereafter unless written notice to terminate or modify the Agreement is filed by either party at least sixty (60) days prior to the expiry date.

APPENDIX C

NATIONAL MAINTENANCE AGREEMENT FOR ALBERTA HOURS OF WORK PROVISIONS, SUNCOR REFINERY, EDMONTON, ALBERTA

1) COMPRESSED WORK WEEK ARRANGEMENTS

The Parties agree to the following amendment to the National Maintenance Agreement at the Suncor Refinery Site in Edmonton, Alberta which "grandfathers" the Compressed Work Week arrangements in place at the site. This Compressed Work Week arrangement will apply to Edmonton Exchanger and be an option to the existing hours of work arrangements covered in Article 16.000 of the National Maintenance Agreement.

This grandfathered Compressed Work Week will follow the existing arrangements on site as described as follows:

- a) The parties to this Agreement agree that the maximum of nine (9) hours shall constitute a normal days work beginning at 7:30 a.m. and ending at 5:00 p.m. (excluding a one-half hour (1/2) lunch break) may be utilized if restricted to Long Term Base Crew Employees. With the understanding that this work schedule is utilized to compensate the Employees for hours lost during the twenty-six (26) yearly earned days off (EDO's), in keeping with the terms of the Maintenance Contract with Suncor, Edmonton Refinery, the maximum normal work week shall be forty-five (45) hours beginning Monday at 7:30 a.m. and ending Friday at 5:00 p.m. Of the twenty-six (26) EDO's, eighteen (18) will be scheduled by Suncor and the remaining eight (8) will be designated as flex EDO's to be taken as mutually agreed between the employee and the supervisor.

It is understood that when an employee is hired with the intentions of an employment term of more than a six (6) week period, that employee will be automatically on the aforementioned Compressed Work Week arrangements and be considered as a Long Term Base Crew Employee.

Should an employee be terminated prior to working six (6) weeks, an adjustment shall be made in accordance with the terms of Clause b).

- b) It is understood that when employees are hired with the intentions of short-term employment (defined as less than six (6) weeks from the date of hire) that they will be paid in the following manner. During this six (6) week period, employees will be paid time and one-half (1 1/2) for the ninth (9th) hour.

Should the employee be employed onsite after six (6) weeks on the job, that employee will then be considered part of the Long Term Crew and paid in accordance with the Compressed Work Week payment terms (except as outlined in item (e) below).

- c) Overtime payments for work on the scheduled eighteen (18) days off will be at doubletime (2x). If an employee is asked to work their scheduled flex day off without

being given forty-eight (48) hours notice, then the employee will be paid overtime at doubletime (2x). Once scheduled, requests for employees to work on flex days will only be made a last resort, after all reasonable options are made to find alternate arrangements.

If a long term employee is terminated without having a flex EDO within the previous six (6) weeks, then an adjustment will be made to pay any regular hours worked in excess of two hundred and forty (240) hours over the previous six (6) weeks at the applicable overtime rate.

- d) The employee will provide a minimum of seven (7) days notice when requesting flex. EDO's. Special circumstances will be considered by the supervisor wherein a shorter notice period may be allowed.
